

**Kelly Turner**

Chief, Plans Branch

Core Technology Division,

US Army Medical Information Technology Center (USAMITC)

---

Kelly Turner is the Chief of the Plans Branch for the Core Technology Division at the US Army Medical Information Technology Center. At USAMITC, one of her primary responsibilities includes leading the efforts to develop a standard Virtual Desktop Infrastructure architecture for the Medical Command. Prior to working at USAMITC, Kelly worked as the Chief Information Officer and Vice President, Information Technology for Colorado Springs Health Partners (CSHP) overseeing the procurement and implementation of a new Electronic Health Record System. Prior to her work with CSHP, she served in the US Army for 12 years in support of the Army Medical Department.
